

NOTICE OF BOARD OF HEALTH VARIANCE

The Lynn Board of Health received a variance request from the Lynn YMCA swimming pool. The variance request as submitted relates to the provisions of 105CMR 435.05(3) Minimum Standards for Swimming Pools (State Sanitary Code Chapter V) which require, in part, that no projection except ladders and grab rails be permitted from any pool wall or floor surface.

The request stated that enforcement of thereof would do "manifest injustice" and that the applicant has proved that the "same degree of protection" required under this code can be achieved without strict application of the mandated provision. During the hearing it was discovered that the pool currently has lifeguards on duty at all times, during all hours of operation.

Pursuant to 105CMR 435.46, Board of Health granted the variance at a meeting held on February 23, 2016. The variance is also contingent on a lifeguard remaining on duty during all hours of operation for the season.
